

3 Dice — '26 Grade 6

Welcome to Grade 6! For your first puzzle, use the digits 2, 6, 6 to make the numbers from 0 to 20 (they might not all be possible). Brackets are allowed, and you can use (finitely many of) the following operations:

- Standard operations: $+$, $-$, $\times$, $\div$
- Negation: $-\square$
- Exponentiation of two numbers: $\square^\square$
- Square root and n th root: $\sqrt{\square}$ and $\sqrt[n]{\square}$
- Factorial: $\square!$
- Digit decimal and digit repeating decimal: $.d$ and $.\overline{d}$ (with an original digit; you cannot do $.4! = .24$)
- Percent: $\square\%$

Extra points for creativity and negative points for incorrect or messy writing.

0 =	7 =	14 =
1 =	8 =	15 =
2 =	9 =	16 =
3 =	10 =	17 =
4 =	11 =	18 =
5 =	12 =	19 =
6 =	13 =	20 =
